

---

Our fleet of advanced Small Unmanned Aircraft are equipped with 3-axis fully stabilised gimbals carrying professional digital camera systems. Dual control allows the pilot to fly while a photographer controls the camera, ensuring perfect shots every time.

All our aerial cameras provide a minimum of 20MP photos and 4K video, and our Inspire 2 system offers lenses from ultra-wide 7.5mm to 45mm telephoto.

Rigorous risk management, maintenance and safety controls are in place to ensure all our operations are carried out efficiently and safely.

---

## ABOUT US

Shetland Flyer Aerial Media are UK CAA approved commercial UAS operators with Permission for Commercial Operations in congested areas. We hold £2.5M public liability insurance and our pilots are professional photographers and videographers who have international UAS pilot certification.

## SHETLAND FLYER AERIAL MEDIA

---

**Specialist interior, exterior,  
aerial and elevated media  
capture services for  
property marketing,  
corporate publicity material  
and web content**

*Advanced unmanned aircraft technology and high quality cameras produce superior aerial imaging*

Shetland Flyer Aerial Media offer a wide range of media services using our professional cameras and fleet of advanced Unmanned Aerial Systems (UAS). From high quality interior, exterior and aerial media projects to 360° VR panoramic tours, we can provide smart and cost effective solutions tailored to your specific requirements. We also offer extensive in-house post production services and media hosting, providing you with the complete package.

An aerial perspective on your property or corporate marketing materials adds a whole new dimension by capturing the bigger picture, and our high resolution VR tour packages will put your clients right inside the picture. Contact us to discuss your next project and find out what we can do for you.

# SPECIALIST AERIAL MEDIA CAPTURE

We offer a range of specialist media capture packages to make your marketing material really stand out from the crowd. Starting from as little as £149 it won't break the bank, and our high quality exterior, interior and aerial media products produce stunning marketing and publicity content.

## TELESCOPIC POLE PHOTO & VIDEO

Using our 12m (40') telescopic pole we can provide an elevated view even in heavily congested areas where flying is not possible. Our high quality cameras have zoom lenses and provide 18.2MP stills and 1080p HD video. Pole packages are available from just £149 inc VAT for up to 10 JPEG stills.

*An aerial view without using a drone! Photo up to 12m (40') high*

## AERIAL PHOTO & VIDEO

Our aerial photo and video option offers fantastic value for money. Using our fully stabilised integrated camera systems we provide 20MP JPEG stills and stunning 4K UHD video, ideal for print, web and social media marketing. Our packages start from just £199 inc VAT which includes up to 10 JPEG stills or two minutes of unedited 4K UHD video.

*Aerial photos provide an unrivalled property view A vertical view offers a unique perspective*

## COMPLETE MEDIA PACKAGES

The one stop shop for all your marketing media requirements, we offer interior and exterior photo and video, aerial photo and video, and 360° interior, exterior and aerial VR panoramas and tours. Professionally produced media gets real results from your marketing material, and we can manage your projects from capture to final output. Contact us to discuss your requirements.

*Our interactive 360° x 180° VR panoramas and tours put your clients right in the centre of the picture*
